

# Fast Attack SKID UNIT

FLOW & PRESSURE  
**100 GPM @ 9.7 BAR**

DIESEL ENGINE  
**Vanguard - 18 HP**

PUMP  
**Darley**

OUTLET  
**1.5" Ø**

SUCTION INLET  
**2.5" Ø**

## Special Features:

SFFECO Fast Attack Skid units are ideal for short firefighting needs. The unit features a 200 gallon Poly Tank with "C" channel construction for easy installation and removal.

The Ultra High Pressure-High Volume module offers the best for the wild land-urban interface. SFFECO has combined versatile direct-drive 2BE pump and the CAT 7CP high pressure piston pump to meet all your firefighting needs in one compact package. The main pump can be used for water transfer or for 1½" hose for structural attacks, while the belt-driven CAT can produce low flow high pressure flows in excess of 1300 psi with optional foam through the ½" HP hose.

Manufactured using durable, high quality materials and closely supervised by highly qualified technical and service personnel in the industry.

Provides a rapid and cost-effective response to your firefighting requirements.

## Performance:

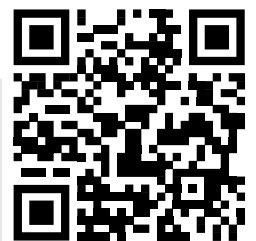

375 gpm (1416 L/M) @ 25 psi (1.7 bar)

300 gpm (1136 L/M) @ 45 psi (3.1 bar)

100 gpm (379 L/M) @ 140 psi (9.7 bar)
